It's been a while since the last Development Update! We've been updating the game through *Steam* and **posted news on our [Discord Server](https://discordapp.com)**[*discordapp.com*], but not here.

We have been (*and still in the process of*) **moving from France to Canada**, so it has been **very busy around here**, and we didn't have much time recently, but here is a **summary of the improvements that have been made the past two months!**

VISUAL IMPROVEMENTS + OPTIMIZATIONS. **Discord Channel:**

Hello! Thanks to *The Promidius* for his great efforts and work to make this happen, we now have an **Official Discord Channel** for testers to communicate between each other easily, talk directly to us and report suggestions / bugs.

If you prefer to use Discord rather than the Steam community, feel free to **join our Official Discord Channel here: <https://discord.gg/NceYxww>**

Thanks, and **see you soon on Discord!**. **Development Update #13:**
